

You are invited to participate in research about disabled people's experiences of abortion services in Aotearoa New Zealand

**Nā tō rourou, nā taku rourou, ka ora ai tō tātou whānau**

This whakataukī encapsulates the notion that while working in isolation might result in survival, working together as a whānau can take us beyond survival and onto prosperity

- We will ask people's experiences of:
- abortion services
  - abortion-related mental health support or assessment
    - counselling
  - contraception services

# Understanding Experiences of Abortion

We are looking for 20 disabled people who have experienced abortion services to participate in an anonymous questionnaire.

Abortion services include abortion-related mental health support or assessment, counselling, and contraception services.

You must be 18 years or over to participate

The aim of the project is to learn about disabled people's access to, and experiences of, a wide range of abortion services.

The findings from the research will help the government and healthcare providers to address matters of disability rights, and deliver more equitable, inclusive and accessible abortion services. The findings will also feed into the New Zealand Government's 5-year review of the Abortion Legislation Act 2020.
