Details of person with Cerebral Palsy

First Name:

Last Name:

Date of Birth:

Ethnicity:

Gender - please circle:

Male Female Non-binary Prefer not to say

Email:

Phone:

Mobile:

Postal Address:

Postcode:

GMFCS level (please see page 2)

Covered by ACC ☐

OR Ministry of Health ☐

Is there any information you'd like us to know, to enable us to help you better? e.g. best form of communication? _____

Person filling in the form (If different from above):

Name:

Contact details (If different from above):

Email:

Mobile:

Phone:

Postal Address:

Postcode:

A member of my family has Cerebral Palsy ☐

Relationship _____

I/We do not have Cerebral Palsy ☐

We require **proof of a Cerebral Palsy diagnosis** from a medical professional. (If you are waiting on a diagnosis, please call our Member Support team on 0800 503 603 (ext 1).) Proof of Cerebral Palsy diagnosis attached ☐

The CP Society works with the **NZ Cerebral Palsy Register** - an initiative by Starship Child Health to collate data to help people with CP in New Zealand. This data helps the Society advocate to government for services and treatments for those living with CP.

Yes, I would like to hear more about the CP Register ☐

Membership Type

Individual with CP - \$10 per year \$

Family membership - \$15 per year \$

Friend of the CP Society* - \$10 per year \$

Join up to 4 years in advance
(Number of years x fee subtotal) \$

(Optional) A donation of: \$

TOTAL \$

Membership application process:

Please send this form to the Society for processing. You can:

- Scan and email it to cpsociety@cpsociety.org.nz
- Or post to:

CP Society, PO Box 24759, Royal Oak, Auckland 1345

Please pay the membership fee via direct credit to the Society's bank account: **12-3011-0809757-00**. In the particulars please put the first and last name of the person with Cerebral Palsy.

Your membership will be confirmed following the next Board meeting.

If accepted for membership I/we undertake to be bound by the constitution, policies and guidelines of the Cerebral Palsy Society of New Zealand Inc.

* A Friend of the Society is an individual or family, without a direct association or connection to Cerebral Palsy, but who supports persons with, research in, advocacy of, Cerebral Palsy.

Children GMFCS Levels

	<p>GMFCS Level I</p> <p>Children walk indoors and outdoors and climb stairs without limitation. Children perform gross motor skills including running and jumping, but speed, balance and co-ordination are impaired.</p>
	<p>GMFCS Level II</p> <p>Children walk indoors and outdoors and climb stairs holding onto a railing but experience limitations walking on uneven surfaces and inclines and walking in crowds or confined spaces.</p>
	<p>GMFCS Level III</p> <p>Children walk indoors or outdoors on a level surface with an assistive mobility device. Children may climb stairs holding onto a railing. Children may propel a wheelchair manually or are transported when traveling for long distances or outdoors on uneven terrain.</p>
	<p>GMFCS Level IV</p> <p>Children may continue to walk for short distances on a walker or rely more on wheeled mobility at home and school and in the community.</p>
	<p>GMFCS Level V</p> <p>Physical impairment restricts voluntary control of movement and the ability to maintain anti-gravity head and trunk postures. All areas of motor function are limited. Children have no means of independent mobility and are transported.</p>

Adults GMFCS Levels

<p>GMFCS 1</p>  <p>Can run, jump and climb stairs without issue, but speed, balance or co-ordination are impaired.</p>	<p>GMFCS 2</p>  <p>Can walk and climb stairs using a rail but issues with walking on uneven or inclined surfaces or walking in crowds or confined spaces.</p>
<p>GMFCS 3</p>  <p>Can walk on level surfaces with assistive device but a manual wheel chair used most of the time</p>	<p>GMFCS 4</p>  <p>Capable of walking with a walking frame but mostly relies on wheeled mobility at home and when out.</p>
<p>GMFCS 5</p>  <p>Little or no voluntary control of movement. Maintaining anti-gravity head and trunk postures difficult. All areas of motor function limited. Usually needs to be transported.</p>	<p>GMFCS Gross Motor Function Classification Scale</p> <p>This scale was originally designed to classify children with cerebral palsy according to their gross motor function. The Society has extrapolated this scale beyond children so that information gathered in our research, 'CP through the Life Span', will allow our members to relate the research data for people in a similar GMFCS group to themselves.</p>
