

## Onboarding suppliers to the Cerebral Palsy Society's getProgramme

Before a company or service provider is signed up as a supplier to the getProgramme, we need to check that they meet the criteria of our e-card programme.

Here are some examples of companies and services providers we can on board and some of the ones we can't.

Sometimes we may need to take some time to consider if a company or service provider meets our criteria.

(This is not an exhaustive list, just some examples to give you a feel of companies and service providers we can on board.)
